

7535

The “HOT” New Benchmark
in Hand-Held Computing

Delivering “FIRE” Where it Matters Most

The Psion Teklogix 7535 hand-held computer is designed with you, the user, in mind. It provides the ideal blend of Flexibility, Integration ease, Ruggedness, and Ergonomics (F.I.R.E.) in one device to help maximize your contribution to the corporate bottom line.

Design Goal	Feature Detail	Benefit
Flexible 	<p>The 7535 has a vast array of technology and configuration options.</p>	<p>The 7535 can be tailored to fit your individual corporate needs. The display, keypad, radio type, imaging/scanner technology are all customizable to ensure that you get the perfect fit for your application.</p>
Integration Ease 	<p>Based on industry standards, the 7535 integrates with almost any mobile computing infrastructure.</p> <p>Built by Psion Teklogix, the 7535 is backwards compatible to the 7035.</p>	<p>The 7535 incorporates industry standards such as: Windows CE.Net, 802.11, Intel XScale, RFID, Bluetooth, GSM/GPRS, which makes for easy integration into your existing infrastructure.</p> <p>The 7535 is backwards compatible with the 7035 to ensure that our customers can evolve their devices over time with no impact on productivity and no requirement for reprogramming.</p>
Rugged 	<p>Designed from the outset to deliver exceptional ruggedness.</p>	<p>The 7535 stays up and running, even in the harshest environments. This means that more units are on the floor delivering value, and not at a service depot getting repaired. The net result; a lower total cost of ownership for our customers.</p>
Ergonomic 	<p>The 7535 is designed to be an industry leader in comfort and ease of use.</p>	<p>Ergonomically designed and light weight with a large, clear display and well thought out keypad makes the 7535 easy and comfortable to use for an entire work day.</p>

The 7535 Difference

The 7535 is a highly rugged and powerful Windows CE.Net based hand-held computer. User friendly and ergonomically designed, it delivers the performance and durability required for mobile data collection in the harshest environments. With comprehensive display, data input and connectivity options, the 7535 has the flexibility to fit your requirements. Designed with industry standard components at the forefront, the 7535 delivers seamless integration to your Supply Chain and Mobile Computing applications. Though the 7535 has the power to run the applications of tomorrow, it also provides investment protection by providing backwards compatibility to the applications of today.

Extremely Flexible, easily Integrated, exceptionally Rugged, and highly Ergonomic - these features make the Psion Teklogix 7535 difference.

Why Windows CE.Net

The Windows CE family of products is quickly becoming the Operating System of choice among customers. Windows CE.Net supports advanced networking protocols that make it an excellent match for distributed computing applications. Additional CE.Net benefits include native support for Bluetooth, improved browser functionality, simplified WLAN configuration, and a shortened response time specifically designed to reduce latency in industrial devices. Ease of application integration, comprehensive application development tools and a growing set of connected capabilities make Windows CE.Net the logical choice for Next Generation Platforms such as the 7535.

Two Decades of Proven Performance

Psion Teklogix wireless solutions have been rising to the unique challenges of your business for more than 20 years. Our engineering and system expertise positions us to respond effectively to extreme environments, complex and obstructive site plans, wide ranging user skills, the integration of warehouse management systems and enterprise resource planning software, and much more.

Our extensive product portfolio features rugged yet ergonomic devices that meet the demands of harsh environments while delivering on diverse business and worker needs. For WLAN solutions, our powerful Communications Server and Access Points combine with advanced technologies to optimize your network for real-time data transmissions. Our Wi-Fi certified solutions enable you to mix and match technologies that best address your business' needs. And, our WWAN solutions are all based on industry standards to ensure a solid fit with the existing infrastructure. Finally, the partnerships we have forged with enterprise technology innovators ensure smoothly integrated, best of breed wireless solutions.

Customer Intimacy on a Worldwide Scale

Our technical and professional service teams work with you every step of the way, from pre-installation consulting and services to site surveys, system design, implementation, integration and 7x24 support. At Psion Teklogix we make it our business to know your business. With over 40 sales and support offices and 15,000 customers worldwide, we understand how important it is to design your wireless solution to your needs, and provide leading support to ensure the system continues to deliver maximum value to your corporate bottom line.
